

Solideal Magnum

Resilient Tires

THE GOLD STANDARD IN RELIABILITY

WIDE PROFILE AND FLAT FOOTPRINT
Increases stability and grip

LARGE TREAD BLOCKS AND DEEP LUGS
Maximize life and traction

PREMIUM 3-STAGE RUBBER COMPOUNDING
Improves wear rate and ride quality

**Up to 5 times more durable
than a pneumatic tire**

The five lives of Magnum

MATERIAL HANDLING TIRES & WHEELS

Complete line of high-performance products from the leading brand in material handling tires and wheels

Solideal has the right tire for the right application to best fit your needs in order to provide the **Lowest Operating Cost Solution (LOCS)**

16.00-25	11.25-25	■	-	1445	416	125	15000	12500

Remarks

- (1) Check rim for size, especially on width, as this should correspond to tirebase marking. Check also max. load of rim with rim manufacturer, as wheel load will be restricted by lowest load capacity, either the one given by the rim or by the tire.
- (2) The speeds quoted in the table are the maximum speeds of the unloaded vehicle. An increase in load capacity for lower speeds is not permitted. Loads apply to cyclic service applications. Cyclic service means applications where there is a variation in load and/or speed. For further details please consult the technical department.
- Loads are valid for intermittent service only. Intermittent service means a minimum load variation of 2,5. Does not include the additional weight of the solid tire when converting from pneumatics.

This document contains technical data of all products globally.
It is possible that certain items are not sold in your region.
